

EDUCATION

- National Institute of Technology, Silchar
- Assam, India
- Bachelor of Technology - Electronics and Communication Engineering; CGPA: 7.51
- August 2023 - July 2027

EXPERIENCES

- Satyendra Nath Bose Summer Internship Program
- Research Intern under Dr. Malaya D. Borah
- May 2026 - Present
- [GitHub Link]
 - Architecting FraudShield, a real-time Credit Card Fraud Detection system with a FastAPI backend processing 10,000+ transactions/second.
 - Engineering XGBoost and Scikit-Learn models achieving 95% accuracy on 284,000+ transaction records, with SHAP-based explainability.
 - Optimizing preprocessing pipelines using Pandas and imbalanced-learn, reducing data processing latency by 30% while addressing severe class imbalance.
 - Designing scalable architecture with PostgreSQL, Redis, and Docker to achieve sub-10 ms response times.

PROJECTS

- AdvocateAssam — Full Stack MERN Legal-Tech Platform
- React.js, Node.js, Express.js, MongoDB Atlas, JWT, Tailwind CSS, Cloudinary, Brevo, Razorpay
- 2026
- [Website Link]
 - Built a Full-Stack MERN legal consultation platform with JWT Authentication, Role-Based Access Control (RBAC), Email Verification, and Password Reset.
 - Integrated Razorpay, Brevo, and Cloudinary for secure payments, email automation, and document management.
 - Developed secure REST APIs for lawyer verification, appointment booking, and user management.
- Hospital Appointment Booking System — Full Stack MERN Healthcare Platform
- React.js, Node.js, Express.js, MongoDB Atlas, JWT, Tailwind CSS, Cloudinary, Razorpay
- 2026
- [GitHub Link]
 - Built a Full-Stack MERN hospital appointment platform with JWT Authentication, Role-Based Access Control (RBAC), and secure patient, doctor, and admin management.
 - Developed secure REST APIs for appointment booking, doctor scheduling, profile management, and online consultation workflows using Node.js, Express.js, and MongoDB Atlas.
 - Integrated Razorpay for online payments and Cloudinary for profile image management while designing a responsive UI with React.js and Tailwind CSS.
- AI Resume Analyzer
- Python, FastAPI, React.js, PostgreSQL, LangChain, FAISS, Gemini API
- 2026
- [GitHub Link]
 - Built a full-stack AI-powered Resume Analyzer that evaluates ATS compatibility, matches resumes against Job Descriptions, and generates personalized improvement suggestions using Large Language Models.
 - Developed a FastAPI backend integrating LangChain, FAISS, and the Gemini API to perform semantic skill matching, resume parsing, and Retrieval-Augmented Generation (RAG) with 300 ms inference latency.
 - Built a responsive React.js dashboard featuring ATS Score Visualization, Missing Skill Analysis, Interview Question Generation, and downloadable AI-generated Reports.

TECHNICAL SKILLS

- Programming Languages : C, C++, JavaScript, SQL, Python, HTML, CSS(Tailwind CSS)
- Technologies & Platforms : Node.js, React.js, FastAPI, Pandas, SQL, SQLite, MySQL, MongoDB, NumPy, Linux, Git
- Core Concepts : Machine Learning, Data Structure and Algorithm (DSA), Object oriented Programming (OOP) ,Database Management System(DBMS),Operating System(OS),Computer Network(CN)

POSITION OF RESPONSIBILTY

- Student Volunteer – Think India, NIT Silchar
- Designation (Part-Time)
- Onsite
- 2024 - 2025
- Organized technical seminars, awareness drives, and coordinated event logistics, and participant engagement.

CERTIFICATIONS

- Machine Learning Certification
- Supervised Machine Learning: Regression and Classification – Andrew Ng (Stanford)
- Coursera
- 2025
- Applied machine learning techniques including Linear Regression, Logistic Regression, Gradient Descent, and Regularization to develop and evaluate predictive models using Python and real-world datasets.
 - Certificate Link

OTHER INTERESTS/EXTRACURRICULAR ACTIVITIES

- Football, Travelling
- Volunteer for college tech-fests and cultural fests (e.g., Tecnoesis, Incandescence at NIT Silchar).
